Re: Philadelphia--Southwest
Treatment Plant

Attention: Mr. John Coscia

Dear Mr. Johnson:

The Montgomery County Planning Commission takes this opportunity under the provisions of OMB Circular A-95, to endorse the application by the Philadelphia Water Department to expand and upgrade the Southwest Treatment Plant facilities. We have been assured by Water Commissioner Carmen F. Guarino, that the plant will have capacity to take care of Montgomery County flows through 1979, as projected in the Montgomery County Sewage Facilities Plan, 1971.

Cordially,

Kent R. Miller

Re: Philadelphia - Southwest Treatment Plant (72-126-5)

Dear Mr. Ekstrom:

In response to your memorandum of February 4, 1972, Plymouth Township Commissioners reviewed the memorandum at a work session held February 7 and directed that I inform you as follows:

There is insufficient information in the memorandum to permit any intelligent review of what appears to be a gigantic regional sewer plant. The Commissioners feel that a meeting should be held in order to give an opportunity to those communities which are apparently involved to hear a presentation of the plan and to ask questions concerning the same.

Furthermore, Plymouth Township would prefer to learn about matters of this magnitude before and during the planning and not when the planning effort is concluded.

Sincerely yours,

Robert L. Townsend

Southwest Water Pollution Plan
applicant: Philadelphia Water Department
location: Southwest Philadelphia
PSCH Project Number: 72 02 2 015

Dear Mr. Guarino:

This will advise you that your Letter of Intent submitted on 2-1-72 has been referred to the appropriate State agencies and interest has been expressed in the above-referenced project. The following State agencies wish to continue their review and wish to submit comments regarding this particular project:

Department of Environmental Resources

Comments are expected from the interested agencies in 30 days. You will be contacted, meanwhile, if any additional information is required or a conference is deemed advisable. We urge you to cooperate with the representatives of the various State agencies in their analysis of your project. In most cases they should be able to make suggestions which, if adopted, could improve the quality of your project and increase the likelihood of your receipt of Federal aid.

Please contact us if you have any questions or concerns which you wish to bring to our attention.

Sincerely,

Richard A. Heiss
